Dymax Oligomers & Coatings to Present at RadTech Europe 2013 Conference

Torrington, Connecticut – September 25, 2013... Dymax Oligomers & Coatings R&D Manager Ahmet Nebioglu will give a technical presentation at the upcoming RadTech Europe Conference October 15 to 17 in Basel, Switzerland (www.european-coatings.com/Events/RadTech-Europe-2013). Dr. Nebioglu's presentation, "Novel Pigment Stabilizing Dendritic Oligomers", will be held at 2:50 p.m. on Wednesday, October 16, as part of Session 7, Innovations – New Chemistries. A new family of dendritic acrylate oligomers that addresses various stabilization mechanisms (pigment wetting, electrostatic, and steric stabilization) will be discussed.

Dymax will also showcase highly chemical-resistant oligomers, oligomers for pigments dispersions, and an optically clear hard coating during the RadTech Europe Exhibition at booth #4 at the Congress Center Basel.

For additional information, visit www.dymax-oc.com or contact Dymax O&C Application Engineering at O&Ctechnical@dymax.com or 860-626-7006. Dymax Corporation develops innovative oligomer, adhesive, coating, dispensing, and light-curing systems for applications in a wide range of markets. Major markets include aerospace, appliance, automotive, electronics, industrial, medical device, metal finishing, and UV-curable inks & coatings.
