### Dymax O&C Provides Outsourcing Services

#### *Firm Offers Cost-Saving Capacity, Capability, and Competency*

Torrington, Connecticut – February 20, 2015... Dymax Oligomers & Coatings provides [toll manufacturing services](#) for companies seeking capital cost reduction, supply chain consolidation, and specialized knowledge of energy-cure technology. The company, formerly known as Bomar Specialties, has provided toll manufacturing services to their partners for more than 20 years. Technical and senior production staff work directly with partners to evaluate projects and provide cost-efficient manufacturing solutions.

Dymax O&C is capable of synthesizing specialty urethane acrylate oligomers and resins, and provides contract coating services in the application of solvent-based urethane acrylate and 100% solid urethane acrylate coatings. They're able to scale-up custom blends from 1 to 1500 gallons and can manage a wide range of viscosities up to 500,000 cps. The company has capabilities to address filtration, mixing, and de-aeration challenges for most product systems. They offer closed, stainless-steel-lined, and jacketed reactors that can maintain a temperature range from 30°C to 145°C.

Dymax Corporation develops innovative oligomer, adhesive, coating, dispensing, and light-curing systems for applications in a wide range of markets. The company's products are perfectly matched to work seamlessly with each other, providing design engineers with tools to dramatically improve manufacturing efficiency and reduce costs. Major markets include aerospace, appliance, automotive, electronics, industrial, medical device, metal finishing, and UV-curable inks & coatings.
